CASE NO. 8777

O R D E R

On February 22, 1983, the City of Maysville, Kentucky, ("Maysville") filed a joint application with Sanitation District No. 1 of Mason County ("District") requesting approval of the sale of all sewage system assets of the District to Maysville. A purchase agreement was signed on September 1, 1981, subject to approval by the Commission, whereby the District agreed to sell and assign and Maysville agreed to purchase and assume all assets and liabilities of the sewage system serving Country Club Heights and Limestone Village Subdivisions.

The Commission, after consideration of the evidence of record and being advised, is of the opinion and finds that:

1. Maysville presently owns a municipal sewer collection and treatment system which is operated by the Maysville Utility Commission and serves approximately 3100 customers.

2. The District sewer system serves 212 customers and is presently connected to the Maysville sewer system.

3. Maysville has been treating the sewage collected by the District since approximately September 15, 1981.

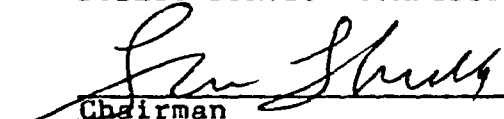

4. The District desires to sell and assign its sewer collection and treatment system to Maysville and Maysville desires to purchase and assume the District's system.

5. Maysville possesses the requisite expertise to own and operate the District's sewer system in an adequate, efficient and reasonable manner.

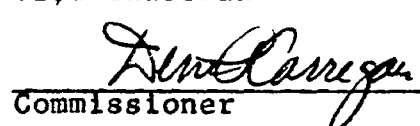

IT IS THEREFORE ORDERED that the sale by the District of its sewer collection and treatment system to Maysville be and it hereby is approved.

Done at Frankfort, Kentucky, this 6th day of May, 1983.
